

AntFi Lite Paging System

HOSPITALITY SOLUTIONS

GUEST NOTIFICATION

ANTFI'S Lite Paging System is designed specifically to help manage long queuing challenge. It allows restaurant, banks, repair center and others to provide the right service at the right time by notifying the waiting customer through our Lite paging system when their food is ready or it is their turn to be served. It makes them feel special and welcome. Free up long queue makes the environment looks more inviting to people walking in. Customers feel more secure with a proper paging system on hand and no longer worry and frustrate over unmanaged long queue resulting from high traffic. It helps company achieve a smooth traffic flow which also leads to faster serving. By offering perfect customer service the instant a customer appears, you enjoy greater competitiveness, revenues and profits.

AntFi Lite Paging System
